Chronic Ucers Foster the Germs of Cancer-Eating Sores

That Breed and From Tuesday's Daily.

Plague Spots the Outgrowth of Dis- 22 degrees above zero. eased Blood, and Constant Drain upon the System.

An old sore or ulcer is not only a source of great bodily discomfort and pain, but the constant care, worry and anxiety over one of these malignant festering places produces an A man whose name was not learned unhealthy state of the nervous system and the patient becomes morbidly sensitive, miserable died on upper Granite street this and gloomy. No one could be otherwise when haunted by the presence of an inflamed, angrylooking sore, with a continual discharge, carrying with it the life fluids, thus robbing the body been paid and her release is expected of strength and vitality. An eating, lingering ulcer naturally fills the sufferer with fear at any time. while noting the daily growth of the sore, from which there is a slow but perpetual discharge | Rev. Lewis will preach at the of yellow or greenish watery matter, and feeling the dull, throbbing or sharp shooting pains union service at the Baptist church as the poison penetrates the tender tissues and reaches the bone.

All slow-healing, stubborn sores are dangerous. The same germ-producing, cancertainted blood is back of every sore or ulcer, large or small, that does not promptly and permanently heal; the little blister upon the lip or tongue, the warty growth or mole upon the cheek

and other parts of the body, About a year ago I wrote the Medical Department of your company to ascer-tain whether or not your S. S. S. would cure Cancer, as my wife had one on her breast, which three or four of the best doctors at Creston, Iowa, advised her to have cut out or removed with a plaster.
Upon receipt of your letter, I bought five bottles and she commenced to take it, and in less than eight months she was cured. I did not write you until now because I wanted to see if the cancer would come back again. There are no symp-toms or signs of a return and I write in order to let others know what a wonderful medicine your S. S. S. is. My wife used just 17% bottles, but the Cancer was cured after she had taken 12 or 14. I feel as though your S. S. S. could not G. E. BIMEGAR, Thayer, Iowa.

Six years ago my leg from the knee and the almost imperceptible to the foot was one solid sore and very offensive. I spent over \$1,000 on two trips to Hot Springs. Local physicians treated me to no purpose. I had about come to the conclusion tumor or lump upon the breast, as often result in Cancer as the deeper and more frightful-looking ulcers. They feed upon the same morbid and destructive materials that are generated within the blood, and inflammation and destruction of tissue will continue just so long as this impure matter is carried through the circulation carried through the circulation mat J. B. TALBERT, Winona, Miss. to these old sores and ulcers.

Washes, salves, nor anything else applied directly to the sore can do any permanent good; to do with these germ-breeding plague spots. You might cut out every particle of the diseased Should you need anything in the County school fund..... flesh and scrape the bone, but another sore would come. The germs or poison in the blood must be destroyed, the stream of sluggish, polluted blood purified and made strong before the heal.

Should you need anything in the drug store ring 'phone 217. Hill-drug stor ing process begins and the sore or ulcer can get well. S. S. S. is the only remedy known that can and does accomplish this. It cleanses and purifies the circulation, and when new, rich blood is carried through the little veins and arteries to the sore, it brings about a healthy healing around the edges, and a permanent and thorough cure is soon effected. S. S. not only

expels all impurities, but works a complete and radical change in the entire system by stimulating inactive organs, toning up the nerves, increasing the appetite, and aiding the digestion and assimilation of food, thus building up the weak and wasted constitution. S. S. S. is strictly and entirely a vegetable medicine, and no bad effects follow its use, and for this reason it is better than Mercury and Potash or other minerals, which not only ruin the stomach, but often produce most stubborn which seemeth right." and offensive sores themselves.

Prompt treatment should be given a sore or ulcer, no matter how small it may be, whether external or internal, for what you think a simple sore, may, in reality, be an undeveloped Cancer. Our physicians will gladly advise all who need their services, and those who write us will receive valuable suggestions regarding the treatment of their case free of charge.
